

# Want to join a group search poster? Here's how!

The International Child Search Alliance (ICSA) can help! We're parents and adoptees working together to promote group search posters. Shared widely on Chinese social media, the posters raise awareness in China that international adoptees are searching and encourage birth parents to do a DNA test. Our current posters have tens of thousands of views on Chinese social media.

To join a poster for your province:

- ➔ Open a WeChat account **(REQUIRED)**- [wechat.com/en/](https://wechat.com/en/). This is your primary way to communicate with potential birth relatives. Check your account regularly and respond to people who contact you.
- ➔ Contact the poster administrator for your province by scanning their code below with the WeChat app or joining their Facebook group.
- ➔ We strongly encourage everyone searching to get their DNA into both MyTaproot (CODIS) and Gedmatch (autosomal). Learn more about DNA testing on the ICSA website - [icsachina.org](https://icsachina.org).

While group posters are an easy way to start an active search, we encourage you to learn about all aspects of searching. It's a time and emotional commitment, and a group poster is only a small part of the search.
